Famous Examples & Prices Realized

The most expensive Ty Cobb Red Background ever sold at public auction was a PSA 9 that went for a whopping \$7,900 in the March 2008 Robert Edward Auction. Another famous example is the card purchase by actor Charlie Sheen who later left to one of his 'kittens' in his will. In recent years a high-grade, PSA 8 (PSA #114-5592-99) example has been bought and sold multiple times. First, it was sold on eBay for \$2,495.77 in June of 2008. Then it was highlighted in the Huggins and Scott September 2008 auction where it realized a price of \$3,445 (including buyer's premium). It was then placed on eBay with a buy-it-now of \$4,500, where it sat for 6 months. Then it ended up in the March Robert Edward Auction, where it fetched a price of \$3,700. It now supposedly resides in the collection of YankeeFan87 and can be seen on White Whale.
